UNREGULATED LOCAL EXCHANGE SERVICE

APPLICATION OF TARIFF

1. This Tariff governs Michigan Central Broadband Company's (Company) provision of local exchange services that are not rate-regulated by the Michigan Public Service Commission.
2. Except as otherwise indicated herein, the Company's provision of the rate-unregulated local exchange service contained in this Tariff is also subject to the rules, regulations, and maps specified in the Company's applicable Tariffs (including, but not limited to, Tariff MPSC Nos. 1R and 7R), as they now exist or as they may be revised or superseded. In the event of a conflict between the provisions of this Tariff and other Tariffs of the Company, the provisions of this Tariff shall govern.

Issued: December 14, 2009

Effective: January 1, 2010

Issued pursuant to Section 402 of 2005 PA 235

UNREGULATED LOCAL EXCHANGE SERVICE

SERVICE CHARGES

A. General

1. The Service Charges contained herein apply in connection with the establishment of telephone service and subsequent moves, changes, and additions of lines, instruments and other services or equipment.

B. Application of Service Charges.

1. Establishment of Service: An Establishment of Service Charge applies to work performed by the Company in connection with the receiving, recording and processing of customer requests for service, and equipment ordered to be performed or provided at the same time, involving the establishment of a new customer account. The Establishment of Service Charge also applies to restore service in cases in which the customer's service has been disconnected voluntarily or involuntarily for cause as permitted by law.
2. Line Connection Charge: A Line Connection Charge applies to each central office line on which work is required by a service order in the Company's central office, outside plant, drop wire, or other portion of plant up to the premises served. The Line Connection Charge applies to the restoration of service in cases in which the customer's service has been disconnected voluntarily or involuntarily for cause as permitted by law.
3. Premise Visit Charge: A Premise Visit Charge applies to each customer's order which requires a visit to the customer's premises. Service work in several buildings of a customer located on the same continuous property requires one charge per premise visit. A premises is a building, or a portion of a building or buildings, on the same continuous property occupied by the customer. All space for offices occupied by a customer on the same or separate floors of one building are considered as a single (or same) premises. "Continuous" property refers an uninterrupted plot of land within the same block and occupied by one customer (i.e., a parcel of land enclosed but uncrossed by public thoroughfares; railroad tracks, rivers and alleys are not public thoroughfares). "Building" refers to a structure on one foundation or two structures on separate foundations with a common wall or abutting walls with ready access from one structure to the other by means of doorways or permanent openings through the intervening wall or walls. Structure in the same or different block occupied by one customer and connected by passageways shall be considered as the same building if the passageway is actually used as a continuation of the space in the two buildings and not principally used as a walkway.
4. Promotional Waiver: The Company may choose to waive Service Charges during promotional periods.

Issued: December 14, 2009

Effective: January 1, 2010

UNREGULATED LOCAL EXCHANGE SERVICE

SERVICE CHARGES (CONT'D)

B. Application of Service Charges (Cont'd)

The Service Charges listed below apply in addition to all other applicable recurring and nonrecurring rates and charges associated with the service provided.

<u>Item</u>	<u>Service Charge</u>
Establishment of Service*	
New/Restored Account Per Order	\$20.00
Existing Account Per Order	\$10.00
Line Connection Per Line	\$15.00
Premise Visit*	\$40.00
Per Premise of Same Continuous Property	
Non-Payment Restoration Charge	\$45.00

* The Establishment of Service charge and Premise Visit Charge are in addition to the Line Connection Charge.

The above charges do not contemplate that the services will be provided at a time when the Company's employees' overtime wages apply, nor do they contemplate that the customer will interrupt the services. If the customer requests that overtime labor be performed, or interrupts work once begun, a charge in addition to the specified charges will be made equal to the additional cost involved.

LOCAL CALLING SERVICE PLAN U1

DESCRIPTION OF SERVICE

A. General

1. Local Calling Service Plan U1 provides telephone intercommunication between customers within a Local Calling Area.
2. Unless otherwise indicated, the service may be used for voice or data communication. The service provides unlimited incoming local calls.
3. In addition to the Monthly Local Service Charge, for calls dialed to a station bearing the designation of a central office within an exchange identified in italics in Sheet Nos. 6 through 9, the Company will charge the following:

First 2,000 Conversation minutes of use (MOU) in each month; \$0.00 per MOU Each Conversation MOU over 2,000 in each month: \$0.05 per MOU

The Company will measure Conversation MOU from the time when the Company's switching equipment receives answer supervision to the earlier of when the Company's switch receives disconnection supervision from its own switch or from the terminating switch. The Company will measure Conversation MOU to the next higher whole MOU per call. No MOU are carried forward from month to month.

4. The Company will not provide call record detail for local usage in the end user's monthly bill. The Company will provide call record detail, at the end user's request, at a charge of \$5.00 for each month requested.
5. For calls to exchanges not italicized in Sheet Nos. 6 through 9, customers receive unlimited monthly calls and MOU.
6. Touch Tone Service is included with this service.
7. Service Charges as stated in this Tariff apply.

LOCAL CALLING SERVICE PLAN U1

DESCRIPTION OF SERVICE (CONT'D)

A. General (Cont'd).

8. Calls made to a telephone number with an NPA NXX that is associated with the rate center that is within the customer's local calling area are local calls regardless of the physical location of the called party.

Calls will be completed as local calls without charges in addition to the customer's monthly rate so long as (i) the call terminates to an end user physically located in the called exchange, and (ii) the provider terminating the call has made interconnection and exchange of traffic arrangements with the Company. Calls that do not satisfy conditions (i) and (ii) will incur additional local charges in the amount of 15¢ per MOU, and the MOU used will count toward any applicable monthly MOU allowance set forth in Paragraph 3 above.

Prior to the imposition of the 15¢ per MOU local charge, the Company will provide customer at least 30 days' notice of its intention to do so, and the notice will include information enabling the customer to determine the affected telephone number(s).

AUXILIARY SERVICES AND EQUIPMENT

CENTRAL OFFICE SERVICES

DIRECT INWARD DIALING (DID) SERVICE

Excluding Centrex Systems

A. General

1. DID Service permits calls incoming to a PABX or other customer premise equipment to reach a specific station line without the assistance of an attendant.
2. The service includes central office switching equipment necessary for indialing from the network directly to stations associated with customer premises switching equipment.
3. DID Service is provided only from electronic central offices or from electromechanical offices that are equipped to provide this service.
4. The assignment of telephone numbers for DID Service and the sequence of numbers assigned to a customer are made at the discretion of the Company.
5. The customer is responsible for providing call intercept of assigned but unused telephone numbers associated with DID Service.
6. If DID Service is provided from more than one central office, service from each central office is considered separately for the application of rates and charges.
7. If a customer uses sets of DID Service telephone numbers on different systems on the same or different premises, each set of numbers is considered a separate service for the application of rates and charges.

DIRECT INWARD DIALING (DID) SERVICE

Excluding Centrex Systems (Cont'd)

A. General (Cont'd).

8. Limitations of Service

- a. DID is furnished upon condition that the customer contract for adequate facilities to permit the use of the service without injurious effect upon the general telephone service. Adequate facilities include, but are not limited to, the following:
 - (1) Central Office Trunks – if customer line overflows on all of the DID trunks combined exceed the monthly limit specified as follows for two consecutive months, and in the opinion of the company additional trunk lines are needed, the customer will be required to subscribe for each additional trunk line facilities or terminate the existing service. First trunk line in a group – 100 subscriber line overflows per month; each additional trunk line in the same group – 100 additional subscriber line overflows per month.
 - (2) A minimum of two working DID trunks excluding attendant trunks are required per system.
 - (3) For completion of DID calls (including call attempts where the line is busy or no answer), suitable equipment associated with the company or customer-provided system is required; e.g., sufficient quantities of incoming registers or equivalent.
- b. The company may refuse to furnish or to continue to furnish service for failure to comply with 10.a above.

MAIN AND EXTENSION STATIONS

A. GENERAL

1. Extension stations are normally limited to the same exchange as the associated main station service. Extension stations in a different exchange are provided subject to the availability of facilities and where satisfactory transmission and operation can be provided using normal facilities.
2. Central office lines extended between different switching equipment or between switching equipment and a telephone instrument are classified as extension stations.
3. Separate telephone numbers or other distinctive designations are not assigned to extension stations nor is code ringing permitted. Extension stations are not listed and no additional free listings are allowed in connection with the main station on account of extension stations.
4. Extension stations must be located on the premises of the Customer (or of the joint user on business services) and are restricted to Customer's use (and the use of members of the domestic establishment or employees), except that in the case of individual line subscriber service extensions may be located on another's premises with the understanding that the service is to be used for incoming calls only, and if a separate exchange service is subscribed for at the other premises. (See also Tariff MPSC No. 7R – Classification and Use of Telephone Services.)
5. Individual line extension stations on premises other than those on which the main station is located (off-premise extensions) are furnished subject to the availability of facilities and only if a satisfactory grade of service can be maintained on all connections.

MILEAGE CHARGES

A. GENERAL

1. Definitions

- a. The term "same building" refers to a structure on one foundation or structures on separate foundations with abutting walls and ready access between structures by means of doors through such walls.
- b. The term "same block" refers to a parcel of platted land enclosed, but uncrossed, by public thoroughfares other than alleys. Railroad tracks are not considered public thoroughfares.

B. EXCHANGE LINE MILEAGE

- 1. Individual line service furnished outside the base rate area (but within the service area of the exchange) is subject to exchange line mileage charges.
- 2. The mileage measurement is the airline distance from the location of the service to the nearest point on the base rate area boundary.
- 3. Monthly Rates.

	<u>Per 1/4 Mile or fraction</u>
Individual Line Service	\$0.50

C. EXTENSION STATION AND AUXILIARY SIGNAL LINES

	<u>Monthly Rates</u>
1. Terminals in the same building	No charge
2. Terminals in different buildings within the same blocking and not more than 660 feet airline mileage from main station (per channel)	\$1.00
3. Terminals in different blocks or over 660 feet per channel)	
First 1/4 airline mile or fraction	\$4.00
Each additional 1/4 mile or fraction	\$3.00

AUXILIARY SERVICES AND EQUIPMENT

FIRE REPORT SYSTEM (GROUP ALERTING CONFERENCE EQUIPMENT)

A. GENERAL

1. This system consists of special equipment installed in the Telephone Company's central office arranged to simultaneously place a distinctive steady ring on a group of up to twenty existing subscriber lines when an access number is called.
2. As each called number answers, it is cut through to the calling party as a conference connection.
3. If any of the called telephone lines are busy, a ringing tone is applied as a signal, and the equipment "camps on" and rings the line as soon as the line becomes idle.
4. Any connected line can be arranged to hold the connection so that messages can be repeated in case the calling party hangs up.
5. An optional "call-in" feature is available whereby any telephone station may obtain a connection to the conference equipment by dialing a private "fire information" number.
6. No more than twenty existing subscribers can be connected to the system and each must be on a different line.
7. The Telephone Company will undertake to advise the proper authority in case of the discontinuance of service to any telephone associated with the system.

B. LIABILITY

The telephone Company assumes no liability in the event of failure of the system, and assumes no responsibility for testing the system.

C. RATES

1. Alerting and Conference Equipment (Includes one directory listing if desired)

	<u>Installation</u>	<u>Monthly</u>
Each system	\$75.00	\$30.00
Each associated subscriber line connection	\$5.00	None
Hold feature, each line	\$5.00	None
"Call-in" feature	\$5.00	None

The Installation charges are in lieu of the Service Charges contained in Sheet Nos. 2 and 3.

AUXILIARY SERVICES AND EQUIPMENT

PAYSTATION SERVICE

A. Paystation Service provides telephone service to a Customer leased or owned paystation with or without coin collecting devices. A Paystation Access Line permits providers of such service to provide pay telephone service to the public.

B. DEFINITIONS

Coin Supervision – Provides signaling capability from the central office for paystations that do not have signaling capability within the telephone. This signaling capability provides operators and/or operator systems coin control.

Customer – For purposes of Paystation Service, the Customer is the Paystation Service Provider.

Network Interface Device – A Company–provided jack or its equivalent. It is the point of connection between the Company owned wiring and wiring owned by the Customer. For the purposes of this tariff, the network interface device will be installed at a location mutually agreed upon by the Customer and the Company.

Originating Line Screening (OLS) – Enables operator service providers to determine whether there are billing restrictions on the exchange access line from which a call originates. OLS service delivers codes on operator assisted calls to identify calls originating from privately owned paystations, inmate locations, and hotels/motels, etc. Rates for this service are found in MCBC's interstate access tariff, when facilities and service are available.

Selective Class of Call Screening – Enables the Customer to restrict outgoing operator handled-calls, placed over the Company's network, from the service point to only those calls which are charged to a called telephone, a third number or a calling card. Selective Class of Call Screening will be provided at the Customer's option, where such facilities are available.

C. RULES AND REGULATIONS

1. Paystation Service will be considered a business service for the purpose of applying the terms, rates and conditions found in this tariff and elsewhere.
2. Only one paystation instrument may be connected to each Paystation Access Line. Off-Premises Extensions are not permitted.
3. The Customer shall be responsible for the installation, operation and maintenance of any paystation instrument used in connection with this service.

AUXILIARY SERVICES AND EQUIPMENT

PAYSTATION SERVICE

C. RULES AND REGULATIONS (Continued)

4. Requests to Directory Assistance Service originated from paystations will be charged the applicable rate of the Directory Assistance Service provider.
5. Directory listings may be provided under the regulations that govern the furnishing of listings for business Customers.
6. Coin-free operator and emergency 911 access must be available from all paystations.
7. One directory will be distributed to the Customer without charge for each paystation business exchange line.
8. The Customer is responsible for the provision of booths, shelves, directories and all other ancillary equipment.
9. The Customer shall be responsible for the payment of charges for all local and toll messages originating from or accepted at this type of service, including any Directory Assistance Calls. The Company shall not be liable for shortages of coins collected and deposited at the Customer's paystation instrument.
10. The Company reserves the right to disconnect service when the Customer does not comply with FCC and state rules and regulations related to paystation service and equipment.
11. All Company owned paystations will comply with the Rules, Regulations and Rates outlined in this Paystation Service Tariff.

Issued: December 14, 2009

GRANDFATHERED SERVICES

A. GRANDFATHERING

This section addresses cases in which Grandfathered service offerings are continued only for existing Customers at existing locations. The rates for grandfathered services are subject to change in the same manner and to the same extent as regular service offerings. Where a new Customer takes over existing telephone service, with or without a change in directory listing, where the Customer initiates a change in class of service or where there is a break in the continuity, the "grandfathered" service is no longer available. The renting or leasing of the premises on which the service is provided to someone other than the existing Customer voids the furnishing of the grandfathered service, whether or not the telephone service remains in the name of the original Customer.

B. GRANDFATHERED SERVICES

COMBINATION MAIN ACCESS LINE SERVICE

1. GENERAL

- a. Combination Main Access Line Service applies to cases where a Customer wishes to contract for an access line at each of two separate locations (ordinarily each line will be assigned a separate telephone number) within the same exchange, so as to be able to answer calls for one access line at the other access line location, or both access lines at either location.
- b. Combination Main Access Line Service is provided only in connection with individual lines and is furnished subject to the ability of the Company to provide satisfactory transmission and signaling arrangements and to the rate treatment outlined herein.
- c. Combination Main Access Line Service may be employed where one line is at a business location and the other at a residence or where both lines are at either business or residence locations, but only in connection with services contracted for and used by the same Customer.
- d. Combination Main Access Line Service is grandfathered as of November 1, 2000.
- e. Each access line is charged at the established individual line business or residence rate, according to the classification of the service at each premises.

AUXILIARY SERVICES AND EQUIPMENT

JOINT USER SERVICE

A. GENERAL

1. Joint User Service is an arrangement whereby a person or firm – designated a joint user – is permitted to use the service of a Customer. To facilitate this use, a directory listing is provided for each joint user.
2. Joint User Service is provided only in connection with individual line business service and private branch exchange business service.
3. The joint user must be located in the same office or suite of offices as the Customer, or in an office immediately adjacent thereto and connected therewith by passageways other than public passageways.
4. Joint User Service is not furnished in association with the service of a Customer who is engaged primarily in performing service of a secretarial nature or who is in the business of renting space to tenants.
5. No separate ring numbers or distinctive designations are assigned for the purpose of signaling joint users.
6. Joint User Service must be contracted for by the original Customer who is required to assume responsibility for all charges incurred by the joint user.
7. Extension stations, extra listings, miscellaneous equipment and other facilities and service will be furnished to the joint user upon request of the original Customer.
8. Charges for Joint User Service date from the day the service is first rendered. The minimum charge for Joint User Service, however, is the charge for the period of one month.
9. After the listing of a joint user has been inserted in the directory, such Joint User Service shall not be discontinued during the life of the directory – but not to exceed one year – unless:
 - a. The main station service is also discontinued.
 - b. The joint user moves from the premises in which the main station is located.
 - c. The joint user established main station service on the same premises.

B. RATES

1. Joint User Service, including one listing in the directory, is furnished at an additional 50% of the charge for one individual business line per month.

Issued: December 14, 2009

Effective: January 1, 2010

Issued pursuant to Section 402 of 2005 PA 235
